

ATLANTIS14

The Feelfree Atlantis14 Comfort without compromise – that's the Feelfree **Atlantis14**. Our transitional touring kayak, it bridges the gap between recreational and touring kayaking. With plenty of stability, excellent tracking, speed and controlled turning, it will stay with you as your skills grow. What's more, the **Atlantis14** comes outfitted with a rudder, mid-sized cockpit and tons of storage for day touring or overnights. Outfitting includes fore and aft sealed bulkheads with hatches, plus a day hatch for those smaller on hand items. You also get deck rigging, perimeter lines, and a comfortable high-back seat and retractable grab handles. Rounding out the **Atlantis** is her rudder, allowing extended tracking in wind or cross currents, and easier control for the less experienced.

Super Tough Sea Kayak £599
